

Cell
By Morpheus Shield

It's fucking cement
I'm surrounded on all sides
By fucking
conc-kerete

Rocks and rubble are just
Fucking
Crushing me

And where am I even going?

Scream at the fucking wall
Shitty stone made of everything
You've built around yourself

Bang your fucking head against it
Broken skulls beat boredom.

It's all a matter of time before you
Drill out of here,
But so what? You come back
Again

And

A-fucking
